

# Prostate cancer (Rubin lab)

## Variant Mapping

Total prostate samples	7
Total prostate variants (WGS)	33,329
Prostate variants vs. hg19 CCDS	9205
Prostate variants vs. hg19 TFBSeS	410
Prostate variants vs. hg19 ncRNA	4

# Selection of Cancer Drivers

- Most variants only appear in one sample
- Even just selecting variants appearing in more than one sample leaves a very small fraction of the total variants
